WISDOM VALUE GRID

Contributions made by our families will be highlighted in pink bold font

.Wisdom is insight into the way life works: a proper understanding of the consequences of our thoughts, words and actions and an awareness of the true value of things. It is rooted in proper reverence for God who is the source of all life and all values. Although related to education and knowledge, wisdom differs from cleverness. Wisdom may be best described as discernment gained through life experience and distilled into guiding principles. . The opposite of wisdom is foolishness, which is a wrong understanding of life. Jesus tells the parable of the Rich

Fool (Luke 12:13-21). Although this parable may seem to be mainly about greed and obsession with money, at a deeper level it is about putting our faith in the wrong things. It's about missing the point; it's about being a fool.
